All trains are tied up in North
Texas on account of heavy rains.

President McKinley's last words:
"It is God's way. His will be done."

The Buffalo Exposition will be
closed two days on account of the
death of the President.

Every good citizen of Shiner
laments the tragic death of Presi-
dent McKinley.

Czolgosz wanted to be put off
at Buffalo and he will also be put
off the earth.

A SETTLEMENT of the great steel
strike is being announced from day
to day but the strike is still on.

The superintendent of the state
penitentiaries authorizes the re-
port that there are 4004 convicts in
Texas.

The legislature has again gone
in to the investigating business.
This time it is the Comptroller's
office.

The great steel strike was ended
by a conference in New York last
Saturday, the advantage being all
on the side of the steel trust.

Governor Sayers has set apart
Thursday between 11 and 12 a. m.
for the holding of memorial ser-
vices in Texas.

Congress should at once pass
strict immigration laws that will
effectually prevent the scum of
Europe from entering this country.

We regret to note that several
of our exchanges came to hand last
week barren of any word of sym-
pathy for our sorely stricken presi-
dent.

It is already given out that Sec-
retary of War, Root, will succeed
Hay as Secretary of State and Gen-
eral Greene is to be made Secre-
tary of War.

WHERE are we to look for accu-
racy in medical science when a half
dozen of the foremost physicians
of the country can be as badly
mistaken as were those in atten-
dance on President McKinley.

It is 36 years since Lincoln was
shot and 20 years since Garfield
met the same fate. McKinley is
the third American president to die
by the hand of an assassin.

Americans arriving at Mexico
City from South America say that
the press reports of the revolution
have been entirely too conserva-
tive; one man said he saw a thou-
sand dead bodies left on a battle-
field.—Houston Post.

There is nothing conservative
about that report, to say the least.

Admiral Howison says that he
did not care to serve as a member
of the Schley court of inquiry and
that he was acting under orders
from the Navy Department. His
rejection by the court is first blood
for Schley and foreshadows a com-
plete vindication for the hero of
Santiago.

The Legislature.

The Senate passed finally the
general appropriation, the per diem
and contingent expenses bill and a
bill appropriating \$50,000 to cover a
deficiency in the mileage and the
per diem fund of the first called
session. It took less time to pass
the latter bill than any bill ever
handed by a Texas legislature, so
far as known. Only 22 minutes
elapsed after the author of the bill
went out to write it before its final
passage was announced.

The only disagreements over the
appropriation bill were with refer-
ence to the amendments seeking to
make the Confederate pension item
\$250,000 a year instead of \$150,000
and to increase the amount to be
paid for a disinfecting vessel at
Galveston from \$45,000 to \$65,000.
Both amendments were defeated.
An amendment appropriating \$5,000
wherewith to fence the San Jacinto
battlefield went through without
opposition. The amendments
adopted during the day had the
effect of adding several thousand
dollars to the bill's total.

The Week's News.

The Czar has arrived off Dantzig
on his intended visit to Emperor
William.

Four persons were killed by
lightning last Thursday in North
Texas and several injured.

Attorney General Knox is pre-
paring to prosecute Czolgosz under
the Federal statutes.

The police who handled Czolgosz
admit having tortured him to se-
cure a confession.

The brother of Leon Czolgosz,
who lives in Babertown, Ohio, says
that the assassin should be hung.

A New York paper has it that
the Mexican International Rail-
road has been purchased by Speyer
and Company.

An informal meeting of the cabi-
net was held in Buffalo Thursday.
Among other things the South
American situation was gone over.

Very heavy rains fell all over
North Texas last Thursday. At
Dallas, the streets and business
houses were flooded and great dam-
age was done.

The M. K. & T. officials have
promised the people of San Anto-
nio a direct passenger train service
to St. Louis. This will probably
do away with the present "Katy
Flyer."

The Schley court of inquiry ad-
journed Monday out of respect to
the president.

Vice-president Roosevelt took
the oath of office last Saturday at
3:30 o'clock p. m. at the house of
his friend, Ansley Wilcox, in
Buffalo.

The evils of anarchy were not
very pressing upon us so long as
they were directed against foreign
rulers but since the murder of Mc-
Kinley we see it in a new light and
are up in arms against it.

The rejection of Admiral Howi-
son by Admirals Dewey and Ben-
ham on the Schley court of in-
quiry shows a spirit of fairness
that will be highly commended by
the general public. It is the first
indication that the court will be
conducted fairly and will not be
ruled by the Department.
With regard to the head,
we couldn't expect anything but
fair play.

The people of Shiner were con-
siderably shocked last Saturday
morning when they learned of the
death of President McKinley. From
the reports of the physicians, every-
body supposed he was improving.
The flag was placed at half mast
and a portrait of the deceased pre-
sident was placed in the pos. office
and heavily draped in black crepe.
